Trouble posting your scores over the internet, follow these instructions.

1) Use Internet Explorer. IE6 is too old too. Something newer. Firefox is not supported, and the website tells you so.

2) Go here http://www.golfnetonline.net/playerReg.asp?Assn=2A

3) It says this right there but I'll repeat it here -- Please configure your browser to allow pop-ups and cookies from the domain www.golfnetonline.net

4) Enter your personal Info to register.

5) Once done, you will be able to go to this address, which you should save as a favorite: http://www.golfnetonline.net/clubentry4.asp?CourseNum=81044&StateId=2A

6) There, enter either your userid (easier to remember, should have been created when you registered in step 4), or your member number

7) Enter your password

YOU ARE IN...Post away.
